Item 4: Advisory Business

Firm Description

Fat Cat Financial LLC ("Fat Cat") was founded and began offering advisory services in 2026. Kevin E. Belskie is 100% owner and Chief Compliance Officer.

Types of Advisory Services

ASSET MANAGEMENT

Fat Cat offers discretionary asset management services to advisory Clients. Fat Cat will offer Clients ongoing asset management services through determining individual investment goals, time horizons, objectives, and risk tolerance. Investment strategies, investment selection, asset allocation, portfolio monitoring and the overall investment program will be based on the above factors. The Client will authorize Fat Cat discretionary authority to execute selected investment program transactions as stated within the Investment Advisory Agreement.

FINANCIAL PLANNING AND CONSULTING

Fat Cat offers financial planning and consulting services tailored to each client's needs. Financial planning services may include review and recommendations regarding financial goals, cash flow, retirement planning, investment strategies, risk management and insurance, tax planning, estate planning, and overall net worth analysis. Recommendations are based on the client's financial situation, objectives, and information provided by the client.

Fat Cat also offers consultation services for clients seeking guidance on specific financial topics without engaging in a comprehensive financial plan. Consulting services are limited to the specific topics agreed upon with the client and do not result in the preparation or delivery of a complete financial plan. The scope of services will be outlined in the financial planning and consulting agreement.

If a conflict of interest exists between the interests of Fat Cat and the interests of the Client, the Client is under no obligation to act upon Fat Cat's recommendation. If the Client elects to act on any of the recommendations, the Client is under no obligation to effect the transaction through Fat Cat. Financial plans will be completed and delivered inside of 30 days contingent upon timely delivery of all required documentation.

Client Tailored Services and Client Imposed Restrictions

The goals and objectives for each Client are documented in our Client files. Investment strategies are created that reflect the stated goals and objectives. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without written Client consent.

Wrap Fee Programs

Fat Cat does not sponsor any wrap fee programs.

Client Assets Under Management

Fat Cat has the following Client assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:
\$0	\$0	May 29, 2026

Item 5: Fees and Compensation

Method of Compensation and Fee Schedule

ASSET MANAGEMENT

Fat Cat offers discretionary direct asset management services to advisory Clients. Fat Cat charges an annual investment advisory fee based on the total assets under management as follows:

Assets Under Management	Annual Fee	Monthly Fee
First \$1,000,000 (\$0 - \$1,000,000)	1.25%	.104%
Your next \$2,000,000 (\$1,000,000.01 to \$3,000,000)	0.95%	.079%
Your next \$2,000,000 (\$3,000,000.01 to \$5,000,000)	.075%	.063%
Subsequent amounts (\$5,000,000.01+)	0.50%	.042%

This is a tiered/blended fee schedule, the asset management fee is calculated by applying different rates to different portions of the portfolio. Fat Cat may group certain related Client accounts for the purposes of achieving the minimum account size and determining the annualized fee.

For example (based on monthly billing period):

Client with \$2,500,000 under management would pay \$2,225.00 on a monthly basis.

<u>AUM</u>	<u>Monthly fee</u>	<u>Total</u>
First \$1,000,000	x 0.104% =	\$1,040.00
Next \$1,500,000	x 0.079% =	\$1,185.00
Grand total for the month		<u>\$2,225.00</u>

The annual fee is negotiable based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with Clients, etc.). Fat Cat Fees are billed monthly in advance based on the amount of assets managed as of the close of business on the last business day of the previous month.

Lower fees for comparable services may be available from other sources. Clients may terminate their account within five (5) business days of signing the Investment Advisory Agreement with no obligation and without penalty. After the initial five (5) business days, the agreement may be terminated by Fat Cat with thirty (30) days written notice to Client and by the Client at any time with written notice to Fat Cat. If cash and/or securities are deposited into or withdrawn from an existing account mid-billing period a prorated fee will be charged for that portion of the account. For accounts opened or closed mid-billing period, fees will be prorated based on the days services are provided during the given period. All unearned fees will be refunded to the Client. Client shall be given thirty (30) days prior written notice of any increase in fees. Any increase in fees will be acknowledged in writing by both parties before any increase in said fees occurs.

FINANCIAL PLANNING AND CONSULTING

Fat Cat charges fixed or hourly fees based on complexity and unique Client needs for financial planning. Prior to the planning process the Client will be provided an estimated plan fee.

COMPREHENSIVE FINANCIAL PLAN FEES

Financial Planning Services are offered based on a flat fee between \$3,000 and \$15,000.

CONSULTING FEES

Financial Planning Services are offered based on an hourly fee of \$300 per hour.

Fees for financial plans are due upon delivery of the completed plan.

Services are completed and delivered inside of 30 days contingent upon timely delivery of all required documentation. Client may cancel within five (5) business days of signing Agreement with no obligation and without penalty. If the Client cancels after five (5) business days, any unpaid earned fees will be due to Fat Cat. Termination requests may be submitted via email or phone any time during the planning process.

Fat Cat reserves the right to waive the fee should the Client implement the plan through Fat Cat.

Client Payment of Fees

Fees for asset management services are:

- Deducted from a designated Client account. The Client must consent in advance to direct debiting of their investment account.

Fees for financial plans will be billed:

- Check – to be remitted by Client to Fat Cat.
- Electronic Payment via ACH, Debit Card, or Credit Card (fees will be paid via a third party payment processor in which the client will securely input payment information and pay the advisory fee through a secure portal. Fat Cat will not have continuous access to the Client's banking information.)

Additional Client Fees Charged

Custodians may charge transaction fees and other related costs on the purchases or sales of mutual funds, equities, bonds, options and exchange-traded funds. Mutual funds, money market funds and exchange-traded funds also charge internal management fees, which are disclosed in the fund's prospectus. Fat Cat does not receive any compensation from these fees. All of these fees are in addition to the management fee you pay to Fat Cat. For more details on the brokerage practices, see Item 12 of this brochure.

Prepayment of Client Fees

Fat Cat does not require any prepayment of fees of more than \$1,200 per Client and six months or more in advance.

If the Client cancels after five (5) business days, any unearned fees will be refunded to the Client, or any unpaid earned fees will be due to Fat Cat.

External Compensation for the Sale of Securities to Clients

Fat Cat does not receive any external compensation for the sale of securities to Clients, nor do any of the investment advisor representatives of Fat Cat.

Item 6: Performance-Based Fees and Side-by-Side Management

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

Fat Cat does not use a performance-based fee structure because of the conflict of interest. Performance based compensation may create an incentive for Fat Cat to recommend an investment that may carry a higher degree of risk to the Client.

Item 7: Types of Clients

Description

Fat Cat generally provides investment advice to individuals and high net worth individuals. Client relationships vary in scope and length of service.

Account Minimums

Fat Cat requires a minimum of \$250,000 to open and maintain an account. In certain instances, the minimum account size may be lowered or waived.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods include fundamental analysis. Investing in securities involves risk of loss that Clients should be prepared to bear. Past performance is not a guarantee of future returns.

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Investment Strategy

The investment strategy for a specific Client is based upon the objectives stated by the Client during consultations. The Client may change these objectives at any time by providing written notice to Fat Cat. Each Client executes a Client profile form or similar form that documents their objectives and their desired investment strategy.

Other strategies may include long-term purchases.

Security Specific Material Risks

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks and should discuss these risks with Fat Cat:

- *Market Risk:* The prices of securities in which clients invest may decline in response to certain events taking place around the world, including those directly involving the companies whose securities are owned by a fund; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency, interest rate and commodity price fluctuations. Investors should have a long-term perspective and be able to tolerate potentially sharp declines in market value.
- *Interest-rate Risk:* Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- *Inflation Risk:* When any type of inflation is present, a dollar today will buy more than a dollar next year, because purchasing power is eroding at the rate of inflation.

- *Currency Risk:* Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- *Reinvestment Risk:* This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- *Liquidity Risk:* Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- *Management Risk:* The advisor's investment approach may fail to produce the intended results. If the advisor's assumptions regarding the performance of a specific asset class or fund are not realized in the expected time frame, the overall performance of the client's portfolio may suffer.
- *Equity Risk:* Equity securities tend to be more volatile than other investment choices. The value of an individual mutual fund or ETF can be more volatile than the market as a whole. This volatility affects the value of the client's overall portfolio. Small- and mid-cap companies are subject to additional risks. Smaller companies may experience greater volatility, higher failure rates, more limited markets, product lines, financial resources, and less management experience than larger companies. Smaller companies may also have a lower trading volume, which may disproportionately affect their market price, tending to make them fall more in response to selling pressure than is the case with larger companies.
- *Fixed Income Risk:* The issuer of a fixed income security may not be able to make interest and principal payments when due. Generally, the lower the credit rating of a security, the greater the risk that the issuer will default on its obligation. If a rating agency gives a debt security a lower rating, the value of the debt security will decline because investors will demand a higher rate of return. As nominal interest rates rise, the value of fixed income securities held by a fund is likely to decrease. A nominal interest rate is the sum of a real interest rate and an expected inflation rate.
- *Investment Companies Risk:* When a client invests in open end mutual funds or ETFs, the client indirectly bears their proportionate share of any fees and expenses payable directly by those funds. Therefore, the client will incur higher expenses, which may be duplicative. In addition, the client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives). ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value or (ii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. Adviser has no control over the risks taken by the underlying funds in which client invests.
- *Cash and Cash Equivalents Risk:* Cash and cash equivalents consist of investments like money market funds, certificates of deposit (CDs), Treasury bills, and short-term government bonds. They are generally considered low-risk compared to other asset

classes. While they offer safety, liquidity, and stability, they come with certain risks, such as inflation, interest rate fluctuations, and opportunity costs.

- *Long-term purchases:* Long-term investments are those vehicles purchased with the intention of being held for more than one year. Typically the expectation of the investment is to increase in value so that it can eventually be sold for a profit. In addition, there may be an expectation for the investment to provide income. One of the biggest risks associated with long-term investments is volatility, the fluctuations in the financial markets that can cause investments to lose value.
- *Trading risk:* Investing involves risk, including possible loss of principal. There is no assurance that the investment objective of any fund or investment will be achieved.

Item 9: Disciplinary Information

Criminal or Civil Actions

Fat Cat and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

Fat Cat and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

Fat Cat and its management have not been involved in any self-regulatory organizational enforcement proceedings that are material to a Client's or prospective Client's evaluation of Fat Cat or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

Broker-Dealer or Representative Registration

Fat Cat is not registered as a broker-dealer, however, Managing Member Kevin Belskiis a registered representative of Vanguard Marketing Corporation.

Futures or Commodity Registration

Neither Fat Cat nor its affiliated representatives are registered or have an application pending to register as a futures commission merchant, commodity pool operator, or a commodity trading advisor.

Material Relationships Maintained by this Advisory Business and Conflicts of Interest

Fat Cat does not select or recommend other investment advisors.

Recommendations or Selections of Other Investment Advisors and Conflicts of Interest

Fat Cat does not select or recommend other investment advisors.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics Description

The affiliated persons (affiliated persons include employees and/or independent contractors) of Fat Cat have committed to a Code of Ethics ("Code"). The purpose of our Code is to set forth standards of conduct expected of Fat Cat affiliated persons and addresses conflicts that may arise. The Code defines acceptable behavior for affiliated

persons of Fat Cat. The Code reflects Fat Cat and its supervised persons' responsibility to act in the best interest of their Client.

One area which the Code addresses is when affiliated persons buy or sell securities for their personal accounts and how to mitigate any conflict of interest with our Clients. We do not allow any affiliated persons to use non-public material information for their personal profit or to use internal research for their personal benefit in conflict with the benefit to our Clients.

Fat Cat's policy prohibits any person from acting upon or otherwise misusing non-public or inside information. No advisory representative or other affiliated person, officer or director of Fat Cat may recommend any transaction in a security or its derivative to advisory Clients or engage in personal securities transactions for a security or its derivatives if the advisory representative possesses material, non-public information regarding the security.

Fat Cat's Code is based on the guiding principle that the interests of the Client are our top priority. Fat Cat's officers, directors, advisors, and other affiliated persons have a fiduciary duty to our Clients and must diligently perform that duty to maintain the complete trust and confidence of our Clients. When a conflict arises, it is our obligation to put the Client's interests over the interests of either affiliated persons or the company.

The Code applies to "access" persons. "Access" persons are affiliated persons who have access to non-public information regarding any Clients' purchase or sale of securities, or non-public information regarding the portfolio holdings of any reportable fund, who are involved in making securities recommendations to Clients, or who have access to such recommendations that are non-public.

Fat Cat will provide a copy of the Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflict of Interest

Fat Cat and its affiliated persons do not recommend to Clients securities in which we have a material financial interest.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Fat Cat and its affiliated persons may buy or sell securities that are also held by Clients. In order to mitigate conflicts of interest such as trading ahead of Client transactions, affiliated persons are required to disclose all reportable securities transactions as well as provide Fat Cat with copies of their brokerage statements.

The Chief Compliance Officer of Fat Cat is Kevin E. Belskie. He reviews all trades of the affiliated persons each quarter. The personal trading reviews ensure that the personal trading of affiliated persons does not affect the markets and that Clients of the firm receive preferential treatment over associated persons' transactions.

Client Securities Recommendations or Trades and Concurrent Advisory Firm Securities Transactions and Conflicts of Interest

Fat Cat does not have a material financial interest in any securities being recommended. However, affiliated persons may buy or sell securities at the same time they buy or sell securities for Clients. In order to mitigate conflicts of interest such as front running, affiliated persons are required to disclose all reportable securities transactions as well as provide Fat Cat with copies of their brokerage statements.

The Chief Compliance Officer of Fat Cat is Kevin E. Belskie. He reviews all trades of the affiliated persons each quarter. The personal trading reviews ensure that the personal trading of affiliated persons does not affect the markets and that Clients of the firm receive preferential treatment over associated persons' transactions.

Item 12: Brokerage Practices

Factors Used to Select Broker-Dealers for Client Transactions

Fat Cat will recommend the use of a particular broker-dealer based on their duty to seek best execution for the client, meaning they have an obligation to obtain the most favorable terms for a client under the circumstances. The determination of what may constitute best execution and price in the execution of a securities transaction by a broker involves a number of considerations and is subjective. Factors affecting brokerage selection include the overall direct net economic result to the portfolios, the efficiency with which the transaction is affected, the ability to effect the transaction where a large block is involved, the operational facilities of the broker-dealer, the value of an ongoing relationship with such broker and the financial strength and stability of the broker. Fat Cat will select appropriate brokers based on a number of factors including but not limited to their relatively low transaction fees, reporting ability, execution capability (speed and accuracy), financial stability and reputation, access to markets, technology and reporting platforms, quality of client service and availability of investment research and other brokerage services. Fat Cat relies on its broker to provide its execution services at the best prices available. Lower fees for comparable services may be available from other sources. Clients pay for any and all custodial fees in addition to the advisory fee charged by Fat Cat. Fat Cat does not receive any portion of the trading fees.

Fat Cat will recommend the use of Charles Schwab & Co., Inc.

- *Research and Other Soft Dollar Benefits*

The Securities and Exchange Commission defines soft dollar practices as arrangement under which products or services other than execution services are obtained by Fat Cat from or through a broker-dealer in exchange for directing Client transactions to the broker-dealer. Although Fat Cat has no formal soft dollar arrangements, Fat Cat may receive products, research and/or other services from custodians or broker-dealers connected to client transactions or "soft dollar benefits". As permitted by Section 28(e) of the Securities Exchange Act of 1934, Fat Cat receives economic benefits as a result of commissions generated from securities transactions by the custodian or broker-dealer from the accounts of Fat Cat. Fat Cat cannot ensure that a particular client will benefit from soft dollars or the client's transactions paid for the soft dollar benefits. Fat Cat does not seek to proportionately allocate benefits to client accounts to any soft dollar benefits generated by the accounts.

A conflict of interest exists when Fat Cat receives soft dollars which could result in higher commissions charged to Clients. This conflict is mitigated by the fact that Fat Cat has a fiduciary responsibility to act in the best interest of its Clients and the services received are beneficial to all Clients.

- *Brokerage for Client Referrals*

Fat Cat does not receive client referrals from any custodian or third party in exchange for using that broker-dealer or third party.

- *Directed Brokerage*

Clients who direct brokerage outside our recommendation may be unable to achieve the most favorable execution of client transactions as client directed brokerage may cost clients more money. For example, in a directed brokerage account, you may pay higher brokerage commissions because we may not be able to aggregate orders to reduce transaction costs, or you may receive less favorable prices. Not all advisors require their clients to direct brokerage.

Aggregating Securities Transactions for Client Accounts

Fat Cat is authorized in its discretion to aggregate purchases and sales and other transactions made for the account with purchases and sales and transactions in the same securities for other Clients of Fat Cat. All Clients participating in the aggregated order shall receive an average share price with all other transaction costs shared on a pro-rated basis. If aggregation is not allowed or infeasible and individual transactions occur (e.g., withdrawal or liquidation requests, odd-lot trades, etc.) an account may potentially be assessed higher costs or less favorable prices than those where aggregation has occurred.

Item 13: Review of Accounts

Schedule for Periodic Review of Client Accounts or Financial Plans and Advisory Persons Involved

Account reviews are performed quarterly by the Chief Compliance Officer of Fat Cat, Kevin E. Belskie. Account reviews are performed more frequently when market conditions dictate. Reviews of Client accounts include, but are not limited to, a review of Client documented risk tolerance, adherence to account objectives, investment time horizon, and suitability criteria, reviewing target allocations of each asset class to identify if there is an opportunity for rebalancing, and reviewing accounts for tax loss harvesting opportunities.

Financial plans generated are updated as requested by the Client and pursuant to a new or amended agreement, Fat Cat suggests updating at least annually.

Review of Client Accounts on Non-Periodic Basis

Other conditions that may trigger a review of Clients' accounts are changes in the tax laws, new investment information, and changes in a Client's own situation.

Content of Client Provided Reports and Frequency

Clients receive written account statements no less than monthly for managed accounts. Account statements are issued by Fat Cat's custodian. Client receives confirmations of each transaction in account from custodian and an additional statement during any month in which a transaction occurs. Fat Cat does not provide additional reports to Clients.

Item 14: Client Referrals and Other Compensation

Economic Benefits Provided to the Advisory Firm from External Sources and Conflicts of Interest

Fat Cat receives additional economic benefits from external sources as described above in Item 12.

Advisory Firm Payments for Client Referrals

Fat Cat does not compensate for Client referrals.

Item 15: Custody

Account Statements

All assets are held at qualified custodians, which means the custodians provide account statements directly to Clients at their address of record at least quarterly. Clients are urged to carefully compare the account statements received directly from their custodians to any documentation or reports prepared by Fat Cat.

Fat Cat is deemed to have custody solely because advisory fees are directly deducted from Client's accounts by the custodian on behalf of Fat Cat.

If Fat Cat is authorized or permitted to deduct fees directly from the account by the custodian:

- Fat Cat will provide the Client with an invoice concurrent to instructing the custodian to deduct the fee stating the amount of the fee, the formula used to calculate the fee, the amount of assets under management the fee is based on and the time period covered by the fee;
- Fat Cat will obtain written authorization signed by the Client allowing the fees to be deducted; and
- The Client will receive quarterly statements directly from the custodian which disclose the fees deducted.

Item 16: Investment Discretion

Discretionary Authority for Trading

Fat Cat requires discretionary authority to manage securities accounts on behalf of Clients. Fat Cat has the authority to determine, without obtaining specific Client consent, the securities to be bought or sold, and the amount of the securities to be bought or sold. Client will authorize Fat Cat discretionary authority as stated within the Investment Advisory Agreement.

Fat Cat allows Clients to place certain restrictions, as outlined in the Client's Investment Policy Statement or similar document. These restrictions must be provided to Fat Cat in writing.

The Client approves the custodian to be used. Fat Cat does not receive any portion of the transaction fees or commissions paid by the Client to the custodian.

Item 17: Voting Client Securities

Proxy Votes

Fat Cat does not vote proxies on securities. Clients are expected to vote their own proxies. The Client will receive their proxies directly from the custodian of their account or from a transfer agent.

When assistance on voting proxies is requested, Fat Cat will provide recommendations to the Client. If a conflict of interest exists, it will be disclosed to the Client. If the Client requires assistance or has questions, they can reach out to the investment advisor representatives of the firm at the contact information on the cover page of this document.

Item 18: Financial Information

Balance Sheet

A balance sheet is not required to be provided to Clients because Fat Cat does not serve as a custodian for Client funds or securities and Fat Cat does not require prepayment of fees of more than \$1,200 per Client and six months or more in advance.

Financial Conditions Reasonably Likely to Impair Advisory Firm's Ability to Meet Commitments to Clients

Fat Cat has no condition that is reasonably likely to impair our ability to meet contractual commitments to our Clients.

Bankruptcy Petitions during the Past Ten Years

Fat Cat has not had any bankruptcy petitions in the last ten years.

Item 19: Requirements for State Registered Advisors

Principal Executive Officers and Management Persons

The education and business background for all executive officers and management persons can be found in the Part 2B of this Brochure.

Outside Business Activities

The outside business activities for all executive officers and management persons can be found in the Part 2B of this Brochure.

Performance Based Fee Description

Neither Fat Cat nor its management receive performance based fees. Please see Item 6 of the ADV 2A for more information.

Disclosure of Material Facts Related to Arbitration or Disciplinary Actions Involving Management Persons

The disclosure of material facts related to arbitration or disciplinary actions for all executive officers and management persons can be found in the Part 2B of this Brochure.

Material Relationship Maintained by this Advisory Business or Management persons with Issuers of Securities

There are no material relationships with issuers of securities to disclose.

CERTIFIED FINANCIAL PLANNER™ (CFP®)

I am certified for financial planning services in the United States by Certified Financial Planner Board of Standards, Inc. ("CFP Board"). Therefore, I may refer to myself as a CERTIFIED FINANCIAL PLANNER™ professional or a CFP® professional, and I may use these and CFP Board's other certification marks (the "CFP Board Certification Marks"). CFP® certification is voluntary. No federal or state law or regulation requires financial planners to hold CFP® certification. You may find more information about CFP® certification at www.cfp.net.

CFP® professionals have met CFP Board's high standards for education, examination, experience, and ethics. To become a CFP® professional, an individual must fulfill the following requirements:

- **Education** – Earn a bachelor's degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirement through other qualifying credentials.
- **Examination** – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual's ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- **Experience** – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.
- **Ethics** – Satisfy the *Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement* and agree to be bound by CFP Board's *Code of Ethics and Standards of Conduct* ("Code and Standards"), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

- **Ethics** – Commit to complying with CFP Board’s *Code and Standards*. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.
- **Continuing Education** – Complete 30 hours of continuing education hours every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the *Code and Standards*.
